

Emily Caldwell

(760)-383-1641 | eecldwll@gmail.com

Education

Bachelor of Science in Mechanical Engineering | Brigham Young University -
Idaho | Idaho | Rexburg, ID

September 2020 - April 2027

- Proficiency in 3D parametric CAD software – SolidWorks
- Experience in machining with mill, lathe, and sand casting

Work Experience

Engineering/Estimating Intern | *Acromil, LLC* | City of Industry, CA

Apr 2025 - Present

Assisted where needed in Engineering, Quality, and Estimating for a company that manufactures parts for major commercial and defense aircraft companies

- Learned how to read and make drawings for aerospace parts to include necessary information for inspection as well as the basics of navigating and using the CATIA software
- Create assembly instructions for various parts based on customer and ins specifications and 3D models
- Adjusted planning based off cost breakdowns for first article parts
- Ran surveys for customers on capacity and capabilities for the company

Machine Operator | *The Occasions Group* | Rexburg, ID

Nov 2021 – Jan 2022, Nov 2024 – Feb 2025

Participated in Finishing and Shipping Departments of a printing company

- Learned and operated a number of different machines including machines for scoring, shrink wrapping, rounding corners, magnetizing, cutting, adding adhesive and banding
- Checked quality of the print, embossing, and scoring of the cards
- Built boxes, packaged orders, and created shipping labels different products
- Counted out and grouped several hundred envelopes and cards a day for orders

Metal Shop | *Ultra Craftsmanship* | Rigby, ID

May 2022 - July 2022

Worked on the manufacturing of brackets for floating shelves

- Spent approximately 10 hours a day cleaning slag off back plates for brackets on a bench grinder
- Learned how to load, run, and maintain the CNC plasma cutter tables
- Cut 20 ft bundles of steel rod into various workable sizes with an automatic bandsaw
- Removed metal shards and burrs off cut rod with a belt sander
- Received certification and operated a forklift regularly

Certifications

- SolidWorks Associate Certification | July 2021
- CPR Certification | March 2022
- Forklift Certification | June 2022

Skills

- Basic Python
- Microsoft Word, Excel, PowerPoint
- Basic SolidWorks, Fusion 360, and CATIA design
- Some experience with an oxy-acetylene torch, MIG welder, and stick welder
- Some experience woodworking as well as machining metal with a lathe and mill
- Basic experience 3D printing various materials
